# Panda Blue User Guide

Thank you for choosing Panda Blue, the proven solution to elevate the yield and quality of your cherished macadamia nuts. Panda Blue is expertly formulated as a foliar spray to mitigate environmental and phenological induced nutritional stresses between flowering and nut maturity, precisely when nutrient demand surpasses root uptake.

## Product Description:

Panda Blue is specifically designed to reduce nutritional stress during crucial growth stages, enhancing your macadamia crop's potential yield and overall quality. This foliar spray is packed with essential nutrients and trace minerals, including Nitrogen (12.5% N), Phosphorus (1.0% P), Potassium (9.5% K), Zinc (3.3% Zn), Boron (1.3% B), and Molybdenum (0.04% Mo), essential for your crop's health and productivity.

## Application Guidelines:

Application Rate: Apply Panda Blue in 5-6 applications at different stages:

- Early bud emergence
- Early flowering
- Match head size
- Pea size
- Two applications during nut maturation

Panda Blue contains a super spreader/penetrant, eliminating the need for any other adjuvant.

Dilution: Mix 2.5L of Panda Blue per 100L of water for application.

Apply Panda Blue to the point of run-off for comprehensive coverage.

## Safety Precautions:

- Keep Panda Blue out of the reach of children.
- Avoid direct contact with eyes and skin. If contact occurs, thoroughly rinse with water.
- After use, wash hands before eating, drinking, or smoking.
- Please be aware that Panda Blue contains plant nutrients, trace minerals, acetic acid, methanol, furaldehydes, and phenolics.

## Price and availability

1. Keep Panda Blue out of the reach of children Available in 20L Pail and 900L IBC

## Optimize Nutritional Health and Quality:

Experience the power of Panda Blue as it enhances the vitality and resilience of your macadamia crop during crucial growth stages. Its nutrient-rich composition ensures your trees receive the nourishment they need to thrive and yield exceptional nuts.

**Analysis:**

- Nitrogen (12.5% N)
- Phosphorus (1.0% P)
- Potassium (9.5% K)
- Zinc (3.3% Zn)
- Boron (1.3% B)
- Molybdenum (0.04% Mo)

**Contact Information:**

For any inquiries or assistance, we are here to help you maximize the potential of your macadamia crop. Reach out to us for personalized support and guidance.

**Disclaimer:**

While PandA Blue is designed to enhance crop performance, individual outcomes may vary depending on agricultural practices and environmental conditions. We recommend adhering to the provided guidelines and seeking expert advice to optimize results. Banyula Operations Pty Ltd assumes no liability for crop outcomes beyond the instructions outlined in this user guide.

**General Tips:**

- Always read and follow the product labels and instructions carefully.
- Store all products in a cool, dry place, away from direct sunlight and moisture.
- Keep products out of reach of children and pets.
- In case of any questions or concerns, feel free to contact our customer support team.

Thank you for choosing PandA products. We wish you a successful and bountiful harvest! Happy farming!
